

THE MODIS™ SYSTEM: *Another* Top 20 Tool from Snap-on

Thank you, *Motor*
for giving us our
10th Top 20 Tools
award since 1992.

Nine other Snap-on® products that have earned Top 20 Tool honors include:

2000: *Vantage® kV Ignition Module*

1996: *Vantage® Power Graphing Meter*

1992: *Snap-on® Scanner™ Fast-Track® Troubleshooter Software*

www.snapon.com/modis

When Snap-on introduced MODIS™, the Modular Diagnostics Information System, in June 2002, we knew it was special. After all, MODIS™ has more diagnostic software, more advanced instrumentation, more comprehensive information and a greater ability to adapt to changing technologies than any hand-held diagnostic tool in the world.

What we didn't know was how quickly the industry would recognize how much MODIS™ has to offer. That's why we're so honored *Motor* named our "latest and greatest" a Top 20 Tool for 2002.

Now we'll get busy creating our next Top 20 Tool. See you in 2003!
